## 1. NATURE OF OPERATIONS AND GOING CONCERN

PJX Resources Inc. (the "Company or PJX") is a Canadian corporation incorporated under the laws of Alberta on April 22, 2010, originally under the name of 1532063 Alberta Inc. On March 7, 2011, the Company obtained a Certificate of Continuance from the Registrar of Corporations for the Province of Alberta changing its jurisdiction to the Province of Ontario. On the same date the Company changed its name to PJX Resources Inc.

The principal activities of the Company are mineral exploration projects located near Cranbrook, British Columbia. To date, the Company has not earned mining revenues. The Company is considered to be in the exploration stage. The Company's corporate offices are located at 100 King street West suite 100, Toronto, Ontario.

These financial statements have been prepared in Canadian dollars, the Company's functional currency, using generally accepted accounting principles applicable to a going concern, which contemplate the realization of assets and settlement of liabilities in the normal course of business as they come due for the foreseeable future. For the three months ended March 31, 2012, the Company incurred a loss of \$399,197 or \$0.02 per share (March 31, 2011: loss of \$125,675 or \$0.01 per share), and reported an accumulated deficit of \$2,639,343 (December 31, 2011 \$2,240,146). As at March 31, 2012 the working capital of the Company was \$653,823 (December 31, 2011: \$817,352). Such circumstances lend significant doubt as to the ability of the Company to meet its obligations as they come due and, accordingly, the appropriateness ultimately of the use of accounting principles applicable to a going concern, given the Company is not yet able to generate revenue from operations.

After its incorporation the Company raised seed capital totalling \$88,000 and closed in November 2010 a private placement for gross proceeds of \$827,355 by issuing 5,515,700 common shares. During fiscal 2011, on September 9, 2011 PJX closed an Initial Public Offering ("IPO") for gross proceeds of \$2.5 million by issuing 12,100,000 common shares.

PJX's financing efforts to date are not sufficient in and of themselves to enable the Company to fully fund all aspects of its operations and commitments and there is no assurance that future financing initiatives will be successful or sufficient.

The Company's ability to continue as a going concern is dependent upon its ability to raise additional financing in order to fund its working capital and exploration requirements and eventually to generate positive cash flows either from operations or the sale of properties. These financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary if the going concern assumption were inappropriate, and these adjustments could be material.

These financial statements were approved by the board of directors for issue on May 28, 2012.

### 2. BASIS OF PRESENTATION

These condensed interim financial statements have been prepared in accordance with International Financial Accounting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The condensed interim financial statements should be read in conjunction with the annual financial statements of the Company for the year ended December 31, 2011, which have been prepared in accordance with IFRS as issued by the IASB.

The principal accounting policies and methods of computation applied in the preparation of these

#### Three months ended March 31, 2012 and 2011

unaudited condensed interim financial statements are the same used in the preparation of the Company's last annual audited financial statements. For a full detail of these policies please refer to the Company's audited financial statements at December 31, 2011. These policies have been consistently applied to all the periods presented, unless otherwise stated.

## 3. CAPITAL MANAGEMENT

When managing capital, the Company's objective is to ensure the entity continues as a going concern as well as to maintain optimal returns to shareholders and benefits for other stakeholders. Management adjusts the capital structure as necessary in order to support the acquisition, exploration and development of its exploration properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The properties in which the Company currently has an interest are in the exploration stage. As such, the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for administrative costs, the Company will spend its existing working capital and attempt to raise additional funds as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the three months ended March 31, 2012. The Company is not subject to externally imposed capital requirements.

### 4. FINANCIAL RISK FACTORS

A summary of the Company's risk exposures as it relates to financial instruments are reflected below:

### Credit risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and sales tax receivable. Cash is held with reputable Canadian chartered banks, from which management believes the risk of loss to be minimal. Financial instruments include sales tax receivable. Management believes that the credit risk concentration with respect to financial instruments is minimal.

#### Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. At March 31, 2012, the Company had a cash balance of \$717,452 (December 31, 2011: \$821,353) to settle current liabilities of \$94,929 (December 31, 2011: \$171,769). All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

### Market risk

#### Interest rate risk

The Company's current policy is to invest excess cash in interest bearing accounts at major Canadian chartered banks. The Company periodically monitors its cash management policy.

Three months ended March 31, 2012 and 2011

#### Commodity price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market affecting PJX's capacity to obtain future financings. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices as it relates to the mineral commodities to determine the appropriate course of action to be taken by the Company.

#### Sensitivity analysis

As of March 31, 2012, both the carrying and fair value amounts of the Company's financial instruments are the same. Based on Management's knowledge and experience of the financial markets, the Company believes the following movements are "reasonably possible" over a three month period:

Commodity price risk could adversely affect the Company. In particular, the Company's future profitability and viability of development depends upon the world market price of mineral commodities. As of March 31, 2012, the Company was not in the production phase. As a result, commodity price risk may affect the completion of future equity transactions such as equity offerings and the exercise of stock options. This may also affect the Company's liquidity and its ability to meet its ongoing obligations.

### Carrying value of financial instruments

The carrying values of the financial assets and liabilities at March 31, 2012 and December 31, 2011 are as follows:

	м	arch 31, 2012	December 31 2011		
<b>Financial Assets</b> At fair value through profit or loss					
Cash Deposits	\$	717,452 25,600	\$	821,353 25,600	
Loans and receivable Measured at amortized cost					
Accounts receivable and prepaids	\$	31,300	\$	167,768	

# 5. ACCOUNTS RECEIVABLE

Accounts receivable corresponds to the fair value of sale taxes recoverable paid on taxable purchases of material and services.

### 6. PREPAYMENTS & DEPOSITS

a) Prepaid totaling \$13,249 (December 31, 2011: \$30,499) represents advanced payments to suppliers.

#### Three months ended March 31, 2012 and 2011

b) The Company has deposits with the British Columbia Ministry of Finance for \$25,600 (December 31, 2011: \$25,600) representing a remediation cost bond associated with its properties.

## 7. MINERAL PROPERTIES

On September 14, 2010 the Company entered into an option agreement ("the Agreement") with Ruby Red Resources Inc. (SG Spirit Gold Inc.) to acquire up to 80% interest in four properties: the Dewdney Trail Gold property, the Vine property, the Zinger Gold property and the Eddy Gold property (together "the Properties"), all located in the Cranbrook area of British Columbia, Canada, approximately 1,000 km east of Vancouver B.C.

Under the terms of the Agreement the Company has the option to acquire 80% of these Properties over a four year term by making staged cash payments to the optionors totaling \$215,000. The first option payment for \$20,000 was paid on execution of the Agreement. The next payment of \$30,000 was paid on September 14, 2011. Subsequent payments are due as follows: \$40,000 on or before September 14, 2012, \$50,000 on or before September 14, 2013, and \$75,000 on or before September 14, 2014.

In addition, under the terms of the Agreement, the Company has entered into the following work commitments:

- (a) Complete a cumulative work commitment of \$250,000 on or before September 14, 2011, (completed) and maintain all SG Spirit Gold's Rockies claims and Purcell Claims (less the Luv Property claims) in good standing for 2010.
- (b) Complete a cumulative work commitment of \$750,000 to September 14, 2012; and
- (c) Complete a cumulative work commitment of \$1,250,000 on or before September 14, 2013; and
- (d) Complete a cumulative work commitment of \$2,500,000 on or before September 14, 2014.

Some of the cash required to fund the work commitments can be paid by in PJXs' shares priced at the previous 10 day volume weighted average trading price and subject to Regulatory approval. The amount of cash to be paid on a share basis is to be agreed upon by both parties.

If the Company has paid a cumulative \$140,000 to the Optionor and completed a cumulative \$1,250,000 in work on the Properties on or before September 14, 2013, the Company shall be deemed to have exercised one part of the Option and will have acquired an undivided 60% right, title and interest in and to the Property.

If the Company has paid a cumulative \$215,000 to the Optionor and completed a cumulative \$2,500,000 in work on the Properties on or before September 14, 2014, the Company shall be deemed to have exercised the Option and will have acquired an undivided 80% right, title and interest in and to the Property.

During the three months ended March 31, 2012, PJX incurred in its Dewdney, Eddy, Vine and Zinger properties a total of \$88,713 in exploration expenses, compared to \$13,482 incurred for the same period during fiscal 2011.

Upon completion of the Expenditures and Work Commitment by the Company, and exercise of the option at a 60% or 80% interest, as determined by the Company, the parties will negotiate in good faith and enter into a Joint Venture (JV) Agreement substantially in the form of Form 5A of the Rocky Mountain Mineral Law Foundation. The JV Agreement will provide that each party will contribute to the costs of the JV in proportion to its respective interests in the JV and the Agreement will contain other normal and

### Three months ended March 31, 2012 and 2011

customary terms, covenants, representations and warranties.

During the term of the Option and any subsequent JV, the Company will be the operator for purposes of developing and executing exploration programs.

During the JV period, if either party decides not to participate (Non-participant) in funding the projects then its interest in the JV will be diluted on a pro-rata basis, in accordance with the JV agreement entered into, to a 2% Net Smelter Royalty (NSR), calculated and payable from the Property in accordance with the provisions of the Agreement. The participating company (Participant) will have the right to purchase ½ of the 2% NSR for \$1,000,000, leaving the Non-participant with a 1% NSR.

On October 25, 2011 the Company entered into an amendment of the original Cranbrook Properties Agreement, dated September 14, 2010, signed between SG Spirit Gold Inc. (formerly Ruby Red Resources Inc.) and PJX Resources Inc. Under the terms of the Amended Agreement the parties agreed to add to the area of the Property thirty eight (38) new claims, representing approximately 12,800 additional hectares adjacent to the original Cranbrook Properties, for no additional cost to PJX.

## 8. SHARE CAPITAL

### (a) Authorized capital

As at December 31, 2010 the capital structure of the Company was composed by an unlimited number of authorized common shares with no par value, series A to G, with different rights and privileges.

On March 3<sup>rd</sup>, 2011, the Company amended its capital structure as follows:

(i) Changing the designation of the authorized and issued Class A Shares of the corporation to common Shares with the following rights, privileges, restrictions and conditions:

- To vote at any meeting of shareholders of the Company;
- To receive any dividends declared by the Company;
- Participate in the distribution of the Company assets in case of dissolution, liquidation or wind-up.
- (ii) Cancelling the authorized but unissued Class B,C,D,E,F and G shares.
- (iii) Cancelling the restriction on transferability of the shares.

### (b) Issued capital

The following schedule describes the class A share transactions since December 31, 2010:

Three months ended March 31, 2012 and 2011

	# of Shares	Value
Balance at December 31, 2010	10,235,701	\$ 950,635
Shares issued on IPO	10,500,000	2,100,000
Flow -through shares issued on IPO	1,600,000	400,000

Balance, December 31, 2011 and March 31, 2012	22,335,701	\$ 2,763,127

## (i) Initial Public Offering (IPO)

On September 9, 2011 the Company closed an IPO where 10,500,000 common shares of the Company were issued at a price of \$0.20 per share and 1,600,000 flow-through ("FT") shares of the Company were issued at a price of \$0.25 per share.

In connection with the offering, PJX paid to the agent \$250,000 as cash commission and \$25,000 corporate finance fee. In addition, PJX issued to the agent 1,210,000 compensation warrants entitling the holder thereof to acquire one common share of the Company at a price of \$0.20 until September 9, 2014.

The fair value of the warrants issued to the agent was estimated at \$130,029 by using a standard tree binomial model allowing for a dilution effect and using the following assumptions: dividend yield of 0%, expected volatility of 89.1%; risk-free interest rate of 0.93%; and an expected average life of 3 years.

### (ii) Share based compensation

The Company has a Stock Option Plan (the "Plan") to provide incentive for the directors, officers, employees, consultants and service providers of the Company. The maximum number of shares which may be set aside for issuance under the Plan is 10% of the outstanding common shares.

On November 7, 2011 the Company granted an aggregate of 2,233,500 incentive stock options to employees, officers, directors and consultants of the Company, pursuant to the Company's Stock Option Plan, at an exercise price of CAD \$0.30 per share. The options are exercisable over a period of five years and vest four months after granted. The fair value of each option was estimated on the date of the grant using the Black-Scholes option pricing model, with the following assumptions: dividend yield of 0%, expected volatility of 184%; risk-free interest rate of 1.27%; and an expected average life of 5 years. The estimated fair value of \$425,610 was classified as share-based compensation and is credited to surplus as the option vest. During the first quarter of fiscal 2012, as all options fully vested during the period, PJX charged to income the remaining balance of \$235,668.

### 9. CONTRUBUTED SURPLUS

The following schedule describes PJX contributed surplus movements from December 31, 2010:

#### Three months ended March 31, 2012 and 2011

	\$ 154,816	100%	\$112,193	100%

## **11. COMITMENTS AND CONTINGENCIES**

The Company's contractual obligations to maintain its mineral property interests and other commitments over the next five years and thereafter are as follows:

					2016 and	
	 2012	2013	2014	2015	thereafter	Total
Option payments	40,000	50,000	75,000	-	-	165,000
Work commitments	-	226,467	1,400,000	275,000	1,000,000	2,901,467
	\$ 40,000	\$ 276,467	\$1,475,000	\$ 275,000	\$ 1,000,000	\$ 3,066,467

Although there are approximately \$3.1 million in existing commitments, the payment of these commitments is dependent on the Company retaining the properties. If the Company decides to discontinue its interest in these properties the related commitment would cease to exist.

### 12. RELATED PARTY TRANSACTION

The following transactions were carried out with related parties:

#### a) Purchase of services:

During the three month-period ended March 31, 2011 the Company purchased management services from companies controlled by its senior officers (CEO and CFO).

During the same period in fiscal 2012, PJX did not obtain consulting services from its CEO or CFO as employment contracts were signed between PJX and these officers in September 2011. During the first quarter of fiscal 2012 the Company contracted legal services from a firm where a partner is also a director of PJX.

The following schedule shows payments made during the three month-periods ended March 31, 2012 and 2011 to these companies.

### **13. SEGMENTED REPORTING**

The Company operates in one business segment, the business of acquiring and exploring mineral properties in Canada.

### 14. SUBSEQUENT EVENTS

On April 26, 2012, PJX entered into the Vine Extension Option Agreement (the "Agreement") with Klondike Gold Corp. ("KG"). Under the terms of the Agreement, PJX can earn a 50% interest in KG's 6,300 ha. property by completing \$1.5 million in work, with at least \$1 million of the \$1.5 million spent on drilling, and make share payments to a maximum total of 200,000 common shares over a 5 year period. Once PJX has exercised the option the companies will form a Joint Venture (JV - 50% PJX and 50% KG) with PJX as operator. If either company decides not to participate in the JV then their interest is diluted on a pro-rata basis to a 2% NSR with the other company having the right to purchase ½ of the 2% NSR for \$2 million. The issuance of shares was approved by the TSX-Venture Exchange on May 9, 2012.
