1. NATURE OF OPERATIONS AND GOING CONCERN

PJX Resources Inc. (the "Company or PJX") is a Canadian corporation incorporated under the laws of Alberta on April 22, 2010, originally under the name of 1532063 Alberta Inc. On March 7, 2011, the Company obtained a Certificate of Continuance from the Registrar of Corporations for the Province of Alberta changing its jurisdiction to the Province of Ontario. On the same date the Company changed its name to PJX Resources Inc.

The principal activities of the Company are the exploration of mineral projects located near Cranbrook, British Columbia. To date, the Company has not earned mining revenues. The Company is considered to be in the exploration stage. The Company's corporate offices are located at 3400 One First Canadian Place, Toronto, Ontario.

These financial statements have been prepared in Canadian dollars, the Company's functional currency, using generally accepted accounting principles applicable to a going concern, which contemplate the realization of assets and settlement of liabilities in the normal course of business as they come due for the foreseeable future. For the three and nine month-periods ended September 30, 2013, the Company incurred a loss of $350,557 and $842,071 respectively, compared to $336,589 and $979,665 for the comparative periods of fiscal 2012 and reported an accumulated deficit of $4,558,356 (December 31, 2012: $3,716,285). As at September 30, 2013 the working capital of the Company was $220,349 (December 31, 2012: $1,007,225). Such circumstances lend significant doubt as to the ability of the Company to meet its obligations as they come due and, accordingly, the appropriateness ultimately of the use of accounting principles applicable to a going concern, given the Company is not yet able to generate revenue from operations.

PJX's financing efforts to date are not sufficient in and of themselves to enable the Company to fully fund all aspects of its operations and commitments and there is no assurance that future financing initiatives will be successful or sufficient.

The Company's ability to continue as a going concern is dependent upon its ability to raise additional financing in order to fund its working capital and exploration requirements and eventually to generate positive cash flows either from operations or the sale of properties. These financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary if the going concern assumption were inappropriate, and these adjustments could be material.

2. BASIS OF PRESENTATION

These financial statements were approved by the board of directors for issue on November 26, 2013.

These condensed interim financial statements have been prepared in accordance with IFRS, as applicable to interim financial reports, including IAS 34, *Interim Financial Reporting*, and should be read in conjunction with the annual financial statements for the year ended December 31, 2012, which have been prepared in accordance with IFRS, as issued by the International Accounting Board.

Accounting Policies
The accounting policies followed in these condensed interim financial statements are consistent with those of the previous financial year, except as described below.

Changes in accounting policies:

The Company has adopted the following new and revised standards, along with any consequential amendments, effective January 1, 2013. The changes were made in accordance with the applicable transitional provisions.

(i) IFRS 10, *Consolidated Financial Statements*, replaces the guidance on control and consolidation in IAS27, *Consolidated and Separate Financial Statements*, and SIC-12, *Consolidation – Special Purpose Entities*. IFRS 10 requires consolidation of an investee only if the investor possesses power over the investee, has exposure to variable returns from its involvement with the investee and has the ability to use its power over the investee to affect its returns. Detailed guidance is provided on applying the definition of control. The accounting requirements for consolidation have remained largely consistent with IAS 27.The Company assessed its consolidation conclusions on January 1, 2013 and determined that the adoption of IFRS 10 did not result in any change in the consolidation status since it does not have any subsidiaries or investees.

(ii) IFRS 11, *Joint Arrangements*, supersedes IAS 31, *Interests in Joint Ventures,* and requires joint arrangements to be classified either as joint operations or joint ventures depending on the contractual rights and obligations of each investor that jointly controls the arrangement. For joint operations, a company recognizes its share of assets, liabilities, revenues and expenses of the joint operation. An investment in a joint venture is accounted for using the equity method as set out in IAS 28, *Investments in Associates and Joint Ventures (amended in 2011).* The Company currently has no joint arrangements and concluded that the adoption of IFRS 11 did not affect its accounting or reporting.

(iii) IFRS 13, *Fair value measurement,* provides a single framework for measuring fair value. The measurement of the fair value of an asset or liability is based on assumptions that market participants would use when pricing the asset or liability under current market conditions, including assumptions about risk. The Company adopted IFRS 13 on January 1, 2013 on a prospective basis. The adoption of IFRS 13 did not require any adjustments to the valuation techniques used by the Company to measure fair value and did not result in any measurement adjustments as at January 1, 2013, however new or enhanced disclosure are required as per note 5.

(iv) The Company has adopted the amendments to IAS 1 effective January 1, 2013. These amendments required the Company to group other comprehensive income items by those that will be reclassified subsequently to profit or loss and those that will not be reclassified. The Company has reviewed its comprehensive income items for the comparative period. The adoption of the policy did not result in any adjustments to other comprehensive income or comprehensive income.

3. CAPITAL MANAGEMENT

When managing capital, the Company's objective is to ensure the entity continues as a going concern as well as to maintain optimal returns to shareholders and benefits for other stakeholders. Management adjusts the capital structure as necessary in order to support the acquisition, exploration and development of its exploration properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The properties in which the Company currently has an interest are in the exploration stage. As such, the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for administrative costs, the Company will spend its existing working capital and attempt to raise additional funds as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the

Company's approach to capital management during the nine months ended September 30, 2013. The Company is not subject to externally imposed capital requirements.

4. FINANCIAL RISK FACTORS

A summary of the Company's risk exposures as it relates to financial instruments are reflected below:

Credit risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and sales tax receivable. Cash is held with reputable Canadian chartered banks, from which management believes the risk of loss to be minimal. Financial instruments include sales tax receivable. Management believes that the credit risk concentration with respect to financial instruments is minimal.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. At September 30, 2013, the Company had a cash balance of $338,186 (December 31, 2012: $1,119,490) to settle current liabilities of $136,566 (December 31, 2012: $171,496). All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

Market risk

Interest rate risk
The Company's current policy is to invest excess cash in interest bearing accounts at major Canadian chartered banks. The Company periodically monitors its cash management policy. A 1% change in interest rates would have an insignificant impact in the Company's annual earnings and income.

Commodity price risk
The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market affecting PJX's capacity to obtain future financings. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices as it relates to the mineral commodities to determine the appropriate course of action to be taken by the Company.

Sensitivity analysis

As of September 30, 2013, both the carrying and fair value amounts of the Company's financial instruments are the same. Based on Management's knowledge and experience of the financial markets, the Company believes that is “reasonably possible” that commodity price fluctuation could adversely affect the Company. In particular, the Company's future profitability and viability of development depends upon the world market price of mineral commodities. As of September 30, 2013, the Company was not in the production phase. As a result, commodity price risk may affect the completion of future equity transactions such as equity offerings and the exercise of stock options and /or warrants. This may also affect the Company's liquidity and its ability to meet its ongoing obligations.

5. FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data or other means. Level 3 inputs are unobservable (supported by little or no market activity). The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs.

(a) Assets and liabilities measured at fair value on a recurring basis:

As at September 30, 2013	Level 1	Level 2	Level 3	Aggregate fair value
Cash	$ 338,186	$ -	$ -	$ 338,186

(b) Fair value of financial assets and liabilities:

	September 30, 2013		December 31, 2012	
	Carrying amount	Estimated fair value	Carrying amount	Estimated fair value
Financial Assets:				
Cash	$ 338,186	$ 338,186	$ 1,119,490	$ 1,119,490
Accounts receivables	$ 6,696	$ 6,696	$ 45,551	$ 45,551
Prepaid expenses and deposits	$ 72,738	$ 72,738	$ 64,580	$ 64,580
Financial Liabilities:

Other liabilities	$ -	$ -	$ 37,570	$ 37,570

6. ACCOUNTS RECEIVABLE

Accounts receivable corresponds to the fair value of sale taxes recoverable paid on taxable purchases of material and services.

7. PREPAYMENTS & DEPOSITS

a) Prepaid totaling $12,033 (December 31, 2012: $13,680) represents advanced payments to suppliers.

b) At September 30, 2013, the Company has deposits with the British Columbia Ministry of Finance for $56,000 (December 31, 2012: $47,000) representing remediation cost bonds associated with its properties and advances granted to a drilling operator and other exploration-related suppliers for $4,705. (December 31, 2012: $3,900).

8. ACCOUNTS PAYABLE

Accounts payable includes $75,000 payable to SG Spirit Gold Inc. The amount was paid on October 16, 2013. (See Note 9(I)).

9. MINERAL PROPERTIES

(I) SG Option Agreement:

On September 14, 2010 the Company entered into an option agreement ("the SG Agreement") with SG Spirit Gold Inc. ("SG") (formerly Ruby Red Resources Inc.) to acquire up to 80% interest in four properties: the Dewdney Trail Gold property, the Vine property, the Zinger Gold property and the Eddy Gold property (together "the Properties"), all located in the Cranbrook area of British Columbia, Canada, approximately 1,000 km east of Vancouver B.C.

Under the terms of the SG Agreement the Company had the option to acquire 80% of these Properties over a four year term by making staged cash payments to the optionors totaling $215,000. The first option payment for $20,000 was paid on execution of the SG Agreement, $30,000 was paid on September 14, 2011 and $40,000 on September 4, 2012. Subsequent payments of $50,000 and $75,000 were due on September 14, 2013 and September 14, 2014, respectively.

In addition, under the terms of the SG Agreement, the Company had the following work commitments:

(a) Complete a cumulative work commitment of $250,000 on or before September 14, 2011, (completed) and maintain all SG Spirit Gold's Rockies claims and Purcell Claims (less the Luv Property claims) in good standing.

(b) Complete a cumulative work commitment of $750,000 to September 14, 2012;(completed)

(c) Complete a cumulative work commitment of $1,250,000 on or before September 14, 2013; (completed) and

(d) Complete a cumulative work commitment of $2,500,000 on or before September 14, 2014.

On October 25, 2011 the Company entered into an amendment of the original SG Agreement, dated September 14, 2010. Under the terms of the amended agreement the parties agreed to add to the area of the Property thirty eight (38) new claims, representing approximately 12,800 additional hectares adjacent to the original Cranbrook Properties, for no additional cost to PJX.

On July 8, 2013 the Company entered into an agreement with SG (the P&S Agreement") to acquire a 100% interest in the Cranbrook properties. Under the P&S Agreement, PJX will have full ownership with no NSR or other retained interest by SG. PJX will also not be required to complete approximately $725,000 in remaining work commitments.

The P&S Agreement requires PJX to make the remaining cash payments of the original SG Agreement of $125,000, of which $50,000 were paid on September 13, 2013 and $75,000 paid on October 16, 2013, and issue 500,000 PJX shares (the "Shares") to SG (issued on October 16, 2013). SG has agreed to not sell the Shares for a period of 2 years from the closing date of the agreement and vote with PJX Management and Board during this period. If, at any time after 2 years, SG wishes to assign, sell or transfer the Shares, SG must notify PJX and PJX will have the opportunity to arrange for the sale of the Shares on terms not less favourable to SG than the terms contained in the notice provided by SG. (See Note 16 "Subsequent Events").

(II) Vine Extension Option Agreement:

On April 26, 2012, PJX entered into the Vine Extension Option Agreement (the "VE Agreement") with Klondike Gold Corp. ("KG"). Under the terms of the VE Agreement, PJX can earn a 50% interest in KG's 6,300 hectares-property by completing $1.5 million in work, with at least $1 million of the $1.5 million spent on drilling, and, subject to certain conditions, make share payments to a maximum total of 200,000 common shares over a 5 year period. Once PJX has exercised the option the companies will form a Joint Venture (JV - 50% PJX and 50% KG) with PJX as operator. If either company decides not to participate in the JV then their interest would be diluted on a pro-rata basis to a 2% NSR with the other company having the right to purchase ½ of the 2% NSR for $2 million.

On March 26, 2013 the Company and KG entered into an amended agreement to the VE Agreement, where certain working commitments and option payments are delayed to 24 and 36 months, respectively, from the date of the signing of the original Agreement.

The revised work commitments are as follows:

- Complete a work commitment of $75,000 on or before the date which is 24 months from the date of the VE Agreement;
- Complete a work commitment of $150,000 on or before the date which is 36 months from the date of the VE Agreement;
- Complete a work commitment of $275,000 on or before the date which is 48 months from the date of the VE Agreement;
- Complete a work commitment of $400,000 on or before the date which is 60 months from the date of the VE Agreement;
- Complete a work commitment of $600,000 on or before the date which is 72 months from the date of the VE Agreement.

The revised option payments are as follows:

- Issue 50,000 common shares of PJX to the Optionor on or before the date which is 36 months from the date of the VE Agreement;
- Issue 50,000 common shares of PJX to the Optionor on or before the date which is 48 months from the date of the VE Agreement;
- Issue 50,000 common shares of PJX to the Optionor on or before the date which is 60 months from the date of the VE Agreement;
- Issue 50,000 common shares of PJX to the Optionor on or before the date which is 72 months from the date of the VE Agreement.

10. SHARE CAPITAL

On September 25, 2012 PJX closed the first tranche of a non-brokered private placement where the Company issued 5,814,500 units for gross proceeds of $985,720 by issuing 1,385,000 flow-through units ("Flow-through Unit") at a price of $0.20 per flow-through unit, and 4,429,500 non-flow-through units ("Unit") at a price of $0.16 per non-flow through unit. Each unit, whether acquired as part of a Unit or a Flow-through Unit, consisted of one common share and one non-transferable common share purchase warrant. Each warrant entitles the holder to purchase one common share at an exercise price of $0.25 for 24 months. All securities issued under the offering were subject to a four-month hold period.

On October 9, 2012, PJX closed the second tranche of a financing referred above for gross proceeds of $500,000 by issuing 3,125,000 non-flow-through units at $0.16 per unit. Each unit consisted of one common share and one non-transferable common share purchase warrant. Each warrant entitles the holder to purchase one common share at an exercise price of $0.25 for 24 months. All securities issued under the offering were subject to a four-month hold period.

In conjunction with the above mentioned transaction the Company paid $82,954 in brokerage commissions and issued 507,360 broker warrants on these two tranches to Union Securities Ltd., Canaccord Genuity Corp., PI Financial Corp., and East-West Trade Partners Inc.

On December 28, 2012 the Company closed a non-brokered private placement for gross proceeds of $150,000 by issuing 750,000 flow-through units at a price of $0.20 per unit. Each unit consisted of one common share and one non-transferable common share purchase warrant. Each warrant entitles the holder to purchase one common share at an exercise price of $0.25 for 24 months. No finders' fees or commission were paid in connection with this offering.

Subsequent to quarter end, on November 20, 2013, the Company announcement a non-brokered private placement of up to 4.8 million units for total proceeds of up to $600,000 (See "Subsequent Events" Note 17).

(ii) Share based compensation

The Company has a Stock Option Plan (the "Plan") to provide incentive for the directors, officers, employees, consultants and service providers of the Company. The maximum number of shares which may be set aside for issuance under the Plan is 10% of the outstanding common shares.

On November 6, 2011 the Company granted an aggregate of 2,233,500 incentive stock options to employees, officers, directors and consultants of the Company, pursuant to the Company's Stock Option Plan, at an exercise price of $0.30 per share. The options are fully vested and exercisable until November 7, 2016. The estimated fair value of the options granted was $425,610.

No options were granted, expired or forfeited during the nine months ended September 30, 2013 or the comparative period ended September 30, 2012.

Subsequent to quarter end the Company granted an aggregate of 1,018,500 incentive stock options to employees, officers, directors and consultants of the Company, pursuant to the Company's Stock Option Plan, at an exercise price of $0.15 per share. The options are fully vested and exercisable until November 15, 2018 (See "Subsequent Events" Note 17).

(iii) Shares to be issued

As described in Note 9(I), the P&S Agreement requires PJX to issue 500,000 PJX shares to SG. As the Agreement was closed on September 13, 2013, and the shares issued subsequent to quarter end, on October 16, 2013, the Company has recorded its obligation to issue such shares. The shares were valued at $0.13, the fair value of the shares on the closing date of the transaction.

11. WARRANTS

Warrants issued under private placements:

As described under Note 10(b)(i) the Company issued 8,939,500 warrants as part of the private placement closed, during September and October of fiscal 2012.The warrants exercisable at $0.25 expire after 24 months of issuance. In addition 507,360 broker warrants were issued as part of the same transaction.

As described under Note 10(b)(i) the Company issued 750,000 warrants as part of the private placement closed, on December 28, 2012. These warrants exercisable at $0.25 expire after 24 months of issuance.

The fair values of the warrants issued during fiscal 2012 were calculated using the Black-Scholes options pricing model using the following assumptions:

			Assumptions				
Expiry date	**Type**	**Number of Warrants**	**Dividend yield**	**Volatility**	**Risk free interest rate**	**Expected average life (years)**	**Fair value**
September 25, 2014	Flow-through	1,385,000	Nil	164%	1.10%	2	$ 99,379

14. COMMITMENTS AND CONTINGENCIES

The Company's contractual obligations to maintain its mineral property interests and other commitments over the next five years and thereafter are as follows:

	2014	**2015**	**2016**	**2017 and thereafter**	**Total**
Option payments	$ -	$ -	$ -	$ -	$ -
Work commitments	65,151	150,000	275,000	1,000,000	1,490,151
	$ 65,151	$ 150,000	$ 275,000	$ 1,000,000	$ 1,490,151

Although there are approximately $1.5 million in existing commitments, the payment of these commitments is dependent on the Company retaining the properties. If the Company decides to discontinue its interest in these properties the related commitment would cease to exist.

In addition to the work commitments and option payments underlined in the above table, the Company should issue to the optionor of the Vine Extension property (see Note 9(II)) 200,000 common shares of the Company, on 5 instalments starting April 2015.

The Company is party to certain management contracts and severance obligations. These contracts contain clauses requiring additional payments up to $396,000 to be made upon the occurrence of certain events such as change of control. As the likelihood of these events taking place is not determinable, the contingent payments have not been provided for in these condensed financial statements.

15. RELATED PARTY TRANSACTIONS

The following transactions were carried out with related parties:

a) Purchase of services:
