Condensed Interim Financial Statements
Three and six months ended June 30, 2014 and 2013
(UNAUDITED)

The accompanying condensed interim financial statements of PJX Resources Inc. (the "Company") are the responsibility of the Board of Directors.

These financial statements have been prepared by management, on behalf of the Board of Directors, in accordance with the accounting policies disclosed in the notes to the financial statements. Where necessary, management has made informed judgments and estimates in accounting for transactions which were not complete at the end of the reporting period. In the opinion of management, the financial statements have been prepared within acceptable limits of materiality and are in accordance with International Financial Reporting Standards, as issued by the International Accounting Standards Board.

Management has established processes, which are in place to provide it sufficient knowledge to support management representations that it has exercised reasonable diligence that (i) financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of, and for the periods presented by, the financial statements and (ii) the financial statements fairly present in all material respects the financial condition, results of operations and cash flows of the Company, as of the date of and for the periods presented by the financial statements.

The Board of Directors is responsible for reviewing and approving the financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

PJX Resources Inc.
NOTES TO THE FINANCIAL STATEMENTS
(UNAUDITED)

Three and six months ended June 30, 2014 and 2013

1. NATURE OF OPERATIONS

PJX Resources Inc. (the "Company" or "PJX") is a Canadian corporation incorporated under the laws of Alberta on April 22, 2010, originally under the name of 1532063 Alberta Inc. On March 7, 2011, the Company obtained a Certificate of Continuance from the Registrar of Corporations for the Province of Alberta changing its jurisdiction to the Province of Ontario. On the same date the Company changed its name to PJX Resources Inc.

The principal activities of the Company are the exploration of mineral projects located near Cranbrook, British Columbia. To date, the Company has not earned mining revenues. The Company is considered to be in the exploration stage. The Company's corporate offices are located at 5600 One First Canadian Place, Toronto, Ontario.

The financial statements have been prepared using generally accepted accounting principles applicable to a going concern, which contemplate the realization of assets and settlement of liabilities in the normal course of business as they come due in the foreseeable future. For the six months ended June 30, 2014, the Company incurred a loss of \$376,466 or \$0.01 per share, (June 30, 2013: \$491,514 or \$0.02 per share), and reported an accumulated deficit of \$5,304,725 (December 31, 2013: \$4,928,259). As at June 30, 2014 the working capital of the Company was \$234,210 (December 31, 2013: \$389,250). As at June 30, 2014 the Company had no work commitments (December 31, 2013: \$1,477,927).

These financial statements were approved by the Board of Directors for issue on August 26, 2014.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These condensed consolidated interim financial statements have been prepared in accordance with IFRS, as applicable to interim financial reports, including IAS 34, Interim Financial Reporting, and should be read in conjunction with the annual financial statements for the year ended December 31, 2013, which have been prepared in accordance with IFRS, as issued by the International Accounting Board.

Accounting Policies

The accounting policies followed in these condensed consolidated interim financial statements are consistent with those of the previous financial year. For a full detail of the Companies policies please see the Company Audited Financial Statements at December 31, 2013.

3. CAPITAL MANAGEMENT

The Company considers its capital to be shareholders' equity, which is comprised of share capital, warrants, contributed surplus and accumulated deficit, which as at June 30, 2014 totaled \$287,118 (December 31, 2013 – \$460,515). When managing capital, the Company's objective is to ensure the entity continues as a going concern as well as to maintain optimal returns to shareholders and benefits for other stakeholders. Management adjusts the capital structure as necessary in order to support the acquisition, exploration and development of its exploration properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The properties in which the Company currently has an interest are in the exploration stage. As such, the Company is dependent on further external financing to fund its working capital and exploration activities. In order to carry out the planned exploration and pay for administrative costs, the Company will spend its existing working capital and attempt to raise additional funds as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient

geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the three months period ended June 30, 2014. The Company is not subject to externally imposed capital requirements.

4. FINANCIAL RISK FACTORS

A summary of the Company's risk exposures as it relates to financial instruments are reflected below:

Credit risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and sales tax receivable. Cash is held with reputable Canadian chartered banks, from which management believes the risk of loss to be minimal. Financial instruments include sales tax receivable. Management believes that the credit risk concentration with respect to financial instruments is minimal.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. At June 30, 2014, the Company had a cash balance of \$119,464 (December 31, 2013: \$444,396) to settle current liabilities of \$66,291 (December 31, 2013: \$74,748). All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms. In addition, refer to Note 3 for the Company's approach to capital management.

Market risk

Interest rate risk

The Company's current policy is to invest excess cash in interest bearing accounts at major Canadian chartered banks. The Company periodically monitors its cash management policy. A 1% change in interest rates would increase (decrease) the Company's statement of loss by approximately \$600.

Price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market affecting PJX's capacity to obtain future financings. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices as it relates to the mineral commodities to determine the appropriate course of action to be taken by the Company.

Based on Management's knowledge and experience of the financial markets, the Company believes that is "reasonably possible" that commodity price fluctuation could adversely affect the Company. In particular, the Company's future profitability and viability of development depends upon the world market price of mineral commodities. As of June 30, 2014, the Company was not in the production phase. As a result, commodity price risk may affect the completion of future equity transactions such as equity offerings and the exercise of stock options. This may also affect the Company's liquidity and its ability to meet its ongoing obligations.

(UNAUDITED)

Three and six months ended June 30, 2014 and 2013

5. FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As at June 30, 2014, the carrying value approximates the fair value amounts of the Company's financial instruments. The Company has not disclosed the fair value of accounts receivable, deposits, accounts payable and cash because the carrying values approximate fair values.

6. ACCOUNTS RECEIVABLE

- a) Accounts receivable corresponds to the sale taxes recoverable paid on taxable purchases of material and services.
- b) The Company has recorded \$149,878 in mining tax refunds receivable from the government of British Columbia corresponding to mining tax refunds for the fiscal years ended December 31, 2011, 2012 and 2013.

7. PREPAYMENTS & DEPOSITS

- a) Prepaid totaling \$15,250 (December 31, 2013: \$8,436) represents advanced payments to suppliers.
- b) At June 30, 2014, the Company has deposits with the British Columbia Ministry of Finance for \$48,000 (December 31, 2013: \$67,000) representing remediation cost bonds associated with its properties and other advances totalling \$4,300 (December 31, 2013: \$4,265).

8. MINERAL PROPERTIES

1) SG Option Agreement:

On September 14, 2010 the Company entered into an option agreement ("the SG Agreement") with SG Spirit Gold Inc. ("SG") (formerly Ruby Red Resources Inc.) to acquire up to 80% interest in four properties: the Dewdney Trail Gold property, the Vine property, the Zinger Gold property and the Eddy Gold property (together "the Properties"), all located in the Cranbrook area of British Columbia, Canada, approximately 1,000 km east of Vancouver B.C.

Under the terms of the original SG Agreement the Company had the option to acquire 80% of these Properties over a four year term by making staged cash payments to the optionors totaling \$215,000 and work commitments totaling \$2,500,000 to be completed by December 31, 2014.

On October 17, 2013, PJX closed the Purchase and Sale Agreement with SG (the "P&S Agreement"), originally entered on July 8, 2013 with SG (which effectively modified the original SG Agreement), and acquired 100% ownership in the Cranbrook Properties with no Net Smelter Return ("NSR"), work commitments or other retained interest by SG.

The P&S Agreement required PJX to make the remaining cash payments of the original SG Agreement of \$125,000, of which \$50,000 were paid on September 13, 2013 and \$75,000 paid on October 16, 2013, and issue 500,000 PJX shares (the "Shares") to SG (issued on October 16, 2013), valued at \$65,000. SG has agreed to not sell the Shares for a period of 2 years from the closing date of the agreement and vote with PJX Management and Board during this period. If, at any time after 2 years, SG wishes to assign, sell or transfer the Shares, SG must notify PJX and PJX will have the opportunity to arrange for the sale of the Shares on terms not less favourable to SG than the terms contained in the notice provided by SG.

(II) Vine Extension Option Agreement:

On April 26, 2012, PJX entered into the Vine Extension Option Agreement (the "VE Agreement") with Klondike Gold Corp. ("KG"). Under the terms of the VE Agreement, PJX could earn a 50% interest in KG's 6,300 hectares-property by completing \$1.5 million in work, with at least \$1 million of the \$1.5 million spent on drilling, and, subject to certain conditions, make share payments to a maximum total of 200,000 common shares over a 5 year period. Once PJX has exercised the option the companies will form a Joint Venture (JV - 50% PJX and 50% KG) with PJX as operator. If either company decides not to participate in the JV then their interest would be diluted on a pro-rata basis to a 2% NSR with the other company having the right to purchase ½ of the 2% NSR for \$2 million.

On March 26, 2013 the Company and KG amended the VE Agreement, where certain working commitments and option payments were delayed to 24 and 36 months, respectively, from the date of the signing of the original VE Agreement.

On February 27, 2014 the Company completed a Purchase and Sale Agreement ("P&S Agreement") with Klondike Gold Corp. to acquire a 100% interest in the Vine Extension property.

Under the P&S Agreement, which replaces the original Option Agreement, PJX will not have to complete the remaining exploration work obligation, which at December 31, 2013 was approximately \$1.4 million, or pay the 200,000 shares required under the VE Agreement. PJX has purchased full ownership of the Property by issuing 700,000 PJX common shares ("Shares"), valued at \$91,000 to KG. In addition to receiving the Shares, KG retains a royalty equal to 1 percent of net smelter returns from minerals produced from claims comprising the Vine Extension Property.

KG has agreed to vote with PJX Management and Board for a period of 2 years from the closing date. If, at any time for a period of 1 year from the closing date, KG wishes to assign, sell or transfer the Shares, KG must notify PJX and PJX will have the opportunity to arrange for the sale of the Shares on terms not less favorable to KG than the terms contained in the notice provided by KG.

9. SHARE CAPITAL

(a) Authorized capital

The Company has authorized and unlimited number of common shares with no par value, and with the following rights, privileges, restrictions and conditions:

- To vote at any meeting of shareholders of the Company;
- To receive any dividends declared by the Company;
- Participate in the distribution of the Company assets in case of dissolution, liquidation or wind-up.

(i) Private placements

On November 20, 2013, the Company announced a non-brokered private placement of up to 4.8 million units for total proceeds of up to \$600,000 through the issuance of Flow-through Units and Non Flow-through units ("Unit") at a price of \$0.15 per Flow-through Unit and \$0.125 per Unit. Each unit, whether acquired as part of a Unit or a Flow-through Unit, consists of one common share and one non-transferable common share purchase warrant. Each warrant entitles the holder to purchase one common share at an exercise price of \$0.20 for 24 months following completion of the offering.

The first tranche of this private placement was closed on December 9, 2013 where 485,000 Flow-through Units at \$0.15 per unit and 3,334,000 Units at \$0.125 per unit were issued. The Company paid commissions of \$30,670 on this transaction.

As the value of the Flow-through Unit at the time of the transaction was \$0.15, compared to the Unit value

of \$0.125, a premium on flow-through shares of \$12,125 was recorded. The premium has been deducted from capital and a tax liability premium for the same amount was recorded. The premium is amortized as the flow-through funds are utilized in qualified exploration programs.

On February 11th, 2014, PJX closed the second tranche of the above mentioned financing where 670,000 Units at \$0.125 and 260,000 Flow-Through Units at \$0.15 were sold for gross proceeds of \$122,750.

As the value of the Flow-through Unit at the time of the transaction was \$0.15, compared to the Unit value of \$0.125, a premium on flow-through shares of \$6,500 was recorded. The premium has been deducted from capital and a tax liability premium for the same amount was recorded. The premium is amortized as the flow-through funds are utilized in qualified exploration programs.

As at June 30, 2014 there were no unamortized premiums on Flow-through share.

Subsequent to June 30, 2014 the Company announced a private placement of 4.8 million units through the issuance of flow through ("Flow-Through Unit") and non-flow-through units ("Unit") at a price of \$0.15 per Flow-Through Unit and \$0.125 per Unit. (See subsequent event - Note 14(a)).

(ii) Share based compensation

The Company has a Stock Option Plan (the "Plan") to provide incentive for the directors, officers, employees, consultants and service providers of the Company. The maximum number of shares which may be set aside for issuance under the Plan is 10% of the outstanding common shares.

On November 19, 2013 the Company granted an aggregate of 1,018,500 incentive stock options to employees, officers, directors and consultants of the Company, pursuant to the Company's Stock Option Plan, at an exercise price of \$0.15 per share. The options are fully vested on granting and exercisable until November 15, 2018. The fair value of each option was estimated on the date of the grant using the Black-Scholes option pricing model, with the following assumptions: dividend yield of 0%, expected volatility of 129.13%; risk-free interest rate of 1.52%; and an expected average life of 5 years. The estimated fair value of \$102,659 was recorded as share-based compensation within the statement of loss and was credited to contributed surplus.

The following schedule describes the options outstanding at June 30, 2014 and December 31, 2013:

Expiry Date	Exercise price	Life remaining in years	Number outstanding	Number vested

10. WARRANTS

Warrants issued under private placements:

As part of the first tranche financing closed on December 9, 2013 and described under Note 9(b)(i), the Company issued 3,819,000 warrants with a fair value of \$142,593. Each warrant entitles the holder to purchase one common share at an exercise price of \$0.20 for 24 months following completion of the offering.

As part of the second tranche financing closed on February 2014 and described under Note 9(b)(i), the Company issued 930,000 warrants with a fair value of \$40,571. Each warrant entitles the holder to purchase one common share at an exercise price of \$0.20 for 24 months following completion of the offering.

The fair values of the warrants issued and outstanding were calculated using the Black-Scholes options pricing model using the following assumptions:

Expiry date	Type	Number of Warrants	Dividend yield	Volatility	Risk free interest rate	Expected average life (years)	Fair value
September 25, 2014	Flow -through	1,385,000	Nil	164%	1.10%	2	\$ 99,379

September 25, 2014	Compensation	507,360	Nil	164%	1.10%	2	56,758
October 9, 2014	Non-flow -through	3,125,000	Nil	167%	1.10%	2	207,495
December 28, 2014	Flow -through	750,000	Nil	159%	1.10%	2	50,243
November 28, 2015	Non-flow -through	3,334,000	Nil	113%	1.06%	2	120,056
November 28, 2015	Flow -through	485,000	Nil	113%	1.06%	2	22,537
February 8, 2016	Non-flow -through	670,000	Nil	111%	1.01%	2	27,681
February 8, 2016	Flow -through	260,000	Nil	111%	1.01%	2	12,890

Volatility rates were determined based on historical share pricing volatility for the Company's common shares.
